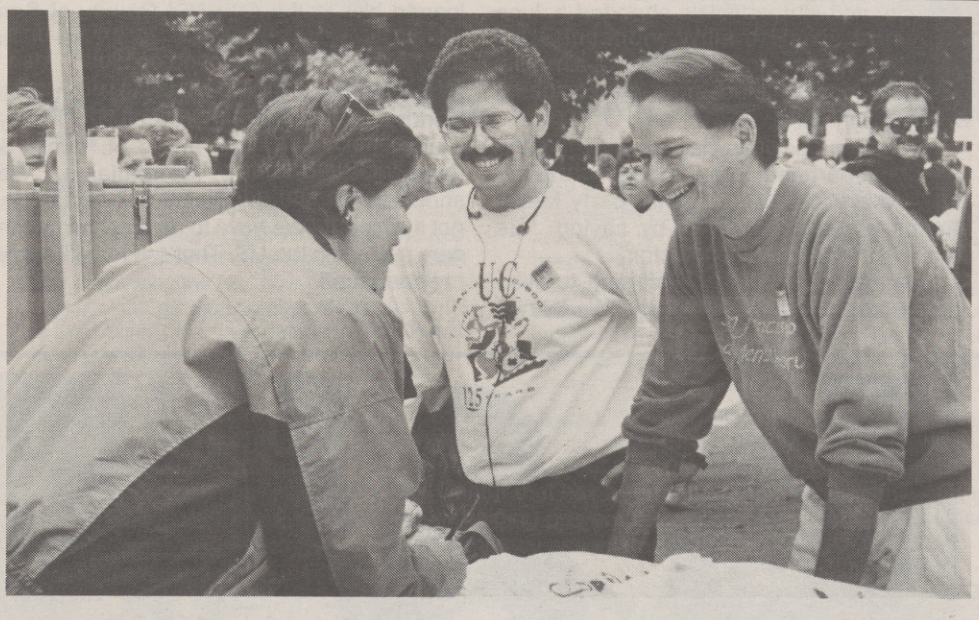
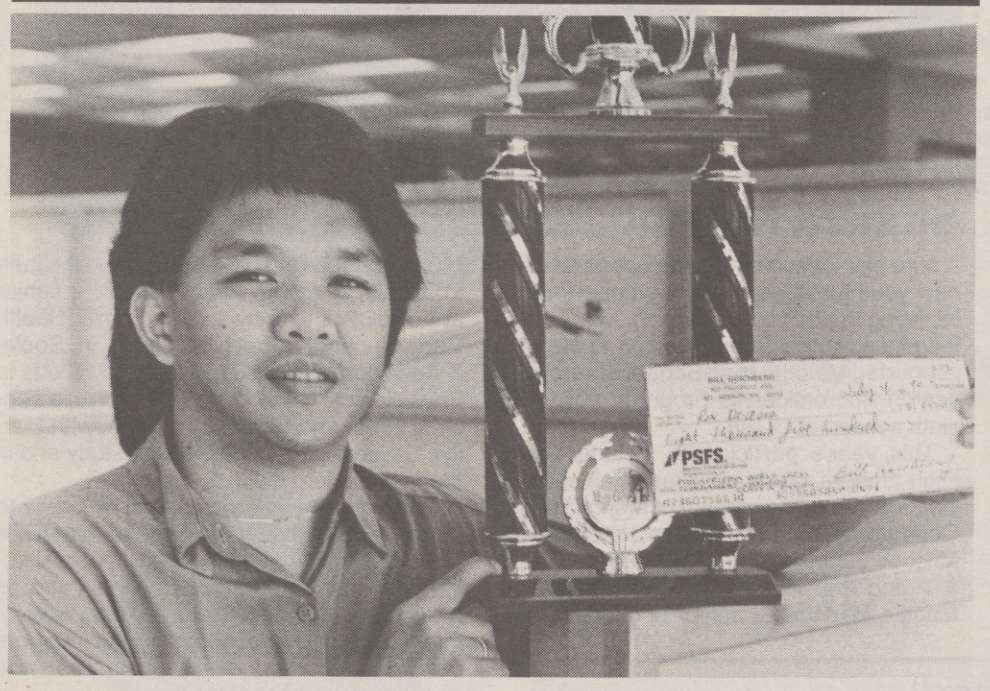
UCSF Newsbreak



UCSF in AIDS Walk

Michael McKeehen from the ACC Surgery Center (right) signs in as part of the UCSF contingent in Sunday's AIDS Walk San Francisco. Michael was one of 110 UCSF employees who walked to raise money to fight AIDS. Michael managed to get all 22 people in his department to donate, which totalled some $375. The walk, the largest ever in California, raised some $2 million. At this writing, the total UCSF raised still is not known. Also at the table are Brenda Patterson, who coordinated UCSF's participation, and Orlando Elizondo, both of the Office of Public Service Programs.



World Champion Chess Player

Rex De Asis, infection control technician in the School of Dentistry Faculty Practice, went off on vacation to Philadelphia recently and came back the world chess champion in his class. "We didn't even know he was going to compete in the tournament," said his supervisor Marysue Bacon. "He's so low key about the whole thing." Rex moved here from the Philippines a year ago, and started right in on the chess circuit. He won his first title in a smaller competition in San Mateo a few months ago, and now has his sights set on the next big international tournament, scheduled for November in New York.

UCSF Plans Regional Comprehensive Cancer Center

The first week of July was an exciting one for us on this campus and our new employees at Mount Zion. Chancellor Krevans announced the first concrete action to come out of the UCSF/Mount Zion integration—plans for a regional comprehensive cancer center, with activities at all four UCSF sites and headquarters and a large component of the patient care activities located at Mount Zion.

The decision to establish a cancer center came after a year of planning led by Dean Joseph B. Martin of the School of Medicine. The Center will serve as an umbrella for all aspects of cancer activities—patient care, early detection and diagnosis, treatment, prevention, teaching, and basic and clinical research—on the Parnassus campus, and at SFGH, the VAMC and Mount Zion.

The four UCSF sites presently treat approximately half of the cancer patients seen in San Francisco.

Emphasis will be focused on patient care, according to Bruce Wintroub, UCSF associate dean at Mount Zion, providing cancer patients throughout Northern California their best chance at early detection, diagnosis and treatment.

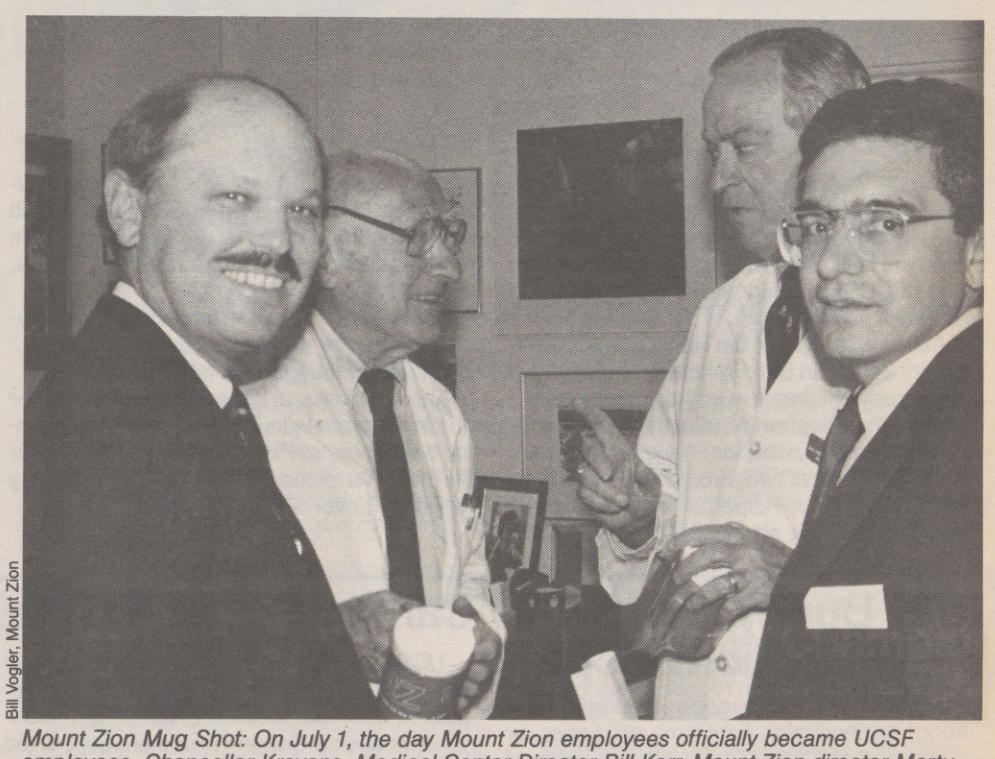
A search is under way for a national cancer leader to head the Comprehensive Cancer Center. Theodore Phillips, chair, radiation oncology, is interim director of the center, while Wintroub is acting director of the Mount Zion cancer programs. Alan Glassberg is heading up the medical oncology program at Mount Zion and a search is underway for an oncologic surgeon to lead the surgery program.

The Center will utilize state-of-the-art science and technology, some of which is available in Northern California only at UCSF. It will have a coordinated team approach, in which patients' cases will be discussed by experts in medical oncology, oncologic surgery, radiation oncology, immunology, and other specialists as needed.

The National Cancer Institute is encouraging our campus to apply for a core grant and formal designation as an "NCI-sponsored Comprehensive Cancer Center," according to Martin.

"I believe very strongly that Northern California needs a regional comprehensive cancer center," said Brian Kimes, head of NCI's Cancer Center's programs. "UCSF clearly has the research base and diversity of research support upon which to build such a strong cancer center." There presently is no NCI-sponsored Comprehensive Cancer Center in Northern California, although Southern California has two.

(continued on page 2)



Bill Vogler, Mount Zion

Mount Zion Mug Shot: On July 1, the day Mount Zion employees officially became UCSF employees, Chancellor Krevans, Medical Center Director Bill Kerr, Mount Zion director Marty Diamond and Associate Dean Bruce Wintroub visited all departments, passing out coffee mugs with a welcome message. Seen here, eminent researcher Meyer Friedman (second from left) accepts his mug from (left to right) Wintroub, Krevans and Diamond.

New Library Opens Monday, September 10

It doesn't seem that long ago that there was a large, cavernous hole on the corner of Third and Parnassus. Over the past 28 months or so, behind fences and barriers, that ominous hole has sprung into a new library.

On Monday, September 10, the new library will begin partial operation, and will be officially opened by Chancellor Krevans on Wednesday, September 12, at 9 a.m. The official dedication of the library will not be held until late March during Founders Day.

As one might imagine, moving the old library's materials into the new building involves months of planning, weeks of work, creates some havoc and causes reduced services. Here is briefly what to expect of the move and how it will affect your use of the present library.

- The LPPI library already has closed in order to integrate its collection with the new library's.
- Areas from which materials are being moved will be closed to the public. You may still access study areas, the Copy Center, and public photocopiers.
- Friday, August 3: Last day to access the Rare Book Collections.
- Beginning Tuesday, August 7: The Collections will start to be moved with completion by the weekend of September 8.
- Sunday, August 19: Last day for charging out bound journals.
- From Monday, August 20 to Friday, September 7: All library users may request paging of materials from any location that is closed to the public (limit two per day).
- Tuesday, September 4: Public services and other staff start to move into the new library. Essential services still provided in present location, but at reduced levels.
- Friday, September 7: Old library closes for good at 10 p.m. Emergency calls may be made to x62336.
- Monday, September 10: New library opens for partial business at 8 a.m.
- Wednesday, September 12: Official opening by Chancellor Krevans at 9 a.m.

Be sure to keep an eye out for the next issue of *Newsbreak*, which will contain a special four-page features section on the library, including an explanation of the new Galen computerized catalogue system and a full schedule of tours.

Philippine Earthquake Relief Fund

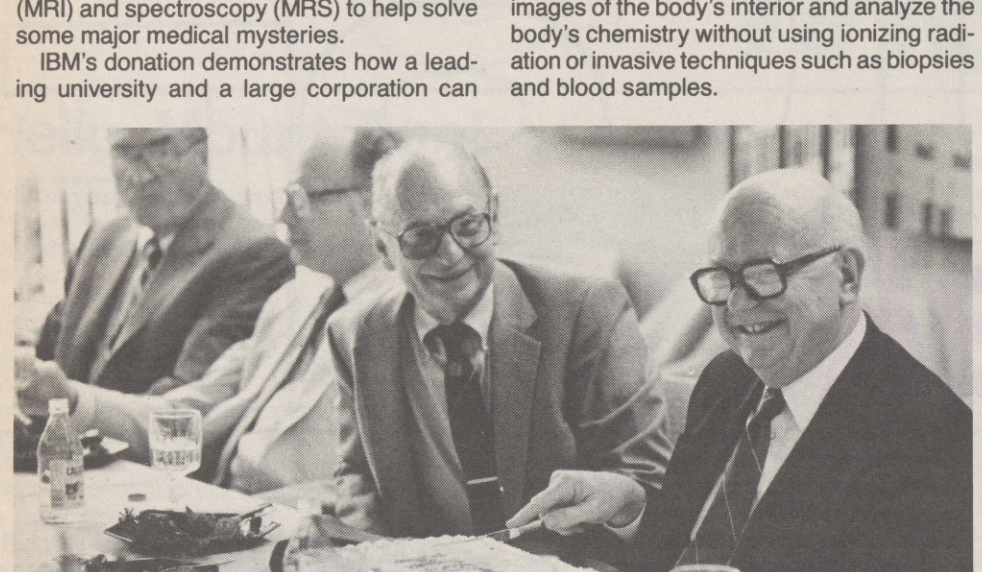
Arthur Cantos, assistant head nurse of 7 Long, is helping to put together a relief fund for the victims of the earthquake which struck the northern island of the Philippines on July 16. If you would like more information call Arthur at x62391, x61618, or 775-0803. If you have a problem contacting him, call Estrella Manio at x62993.

IBM $250,000 Gift to Bolster Research at Magnetic Resonance Center

Our campus has received a $250,000 gift and computer equipment from the IBM Corporation to support medical diagnosis, education and research at the new Magnetic Resonance Science Center. The funding and state-of-the-art computer technology will aid scientists using magnetic resonance imaging (MRI) and spectroscopy (MRS) to help solve some major medical mysteries.

IBM's donation demonstrates how a leading university and a large corporation can cooperate to develop technologies and products that ultimately benefit people everywhere, Chancellor Krevans said.

The IBM equipment will include large-scale computer facilities, advanced work stations and graphic processors. They will process data from MRI and MRS, which create images of the body's interior and analyze the body's chemistry without using ionizing radiation or invasive techniques such as biopsies and blood samples.



David Powers

Horace Flatt (right), manager of the IBM Palo Alto Scientific Center, and Alexander Margulis, professor and former chair, radiology, prepare to cut into an "IBM" cake at a campus luncheon where the $250,000 gift was presented.

At the fete: David Werdegar (far right) with UCSF psychiatrist Mel Blaustein and colleagues.

Health Department Says Goodbye to David Werdegar, the "Family Doctor"

Six hundred friends, colleagues, dignitaries, and city and state officials attended a June 29 soiree in honor of David Werdegar, who has just left as director of the SF Department of Public Health, a position he was to have kept for only six months.

In his five years as head, he turned the Health Department into a model for the nation in every area of care. At the party, Mayor Agnos praised Werdegar by saying, "He really is the City's family doctor."

Chancellor Krevans, in referring to Werdegar returning to UCSF, said, "We loaned him to Fresno, and we got him back. We loaned him to the City and County of San Francisco, and we're glad to get him back again."

Werdegar's future plans at UCSF include working in the Institute for Health Policy Studies and the Department of Family & Community Medicine. He explains, "We should try to end the millennium with a bang, not a whimper. We have to revamp the health care system in the US. That's where I'll apply my energies."

Anika Jones (center) with supervisors Danita Sorenson (left) and Lois Herman (right).

Anika: A Big Help at LPPI

On June 7 Anika Jones walked into LPPI, took the elevator to the second floor and entered into the halls of the LPPI Children's Inpatient Unit. It was her first day on the job as part of UCSF's Chancellor's Summer Youth Program.

Anika, a student at the Renaissance Community School in San Francisco, says her job in the busy children's ward has been great. "I answer the telephones, do lots of errands."

"That's rather modest," explains Danita Sorenson, one of two people who supervise Anika. "She has helped in so many other ways. It is not a simple thing here, it's extremely busy and there are some very troubled kids. Anika sets up snacks for the kids and helps keep us all very organized. She's managed to be very supportive of the kids, without a lot of interaction."

Anika says, "I want to be a child psychologist, so this is a great place for me to be." She'll be on the job until late August.

The successful Chancellor's Summer Youth Program is in its 22nd year. Coordinator Bob Rojas of Personnel says, "This year we have 90 students from all over the city working in over 50 different departments."

(Clockwise from center) Maggie Madrigal, Estrella Manio, Prem Lall, Aimee Green, Cindy Wu, Gaylene McElwee.

Student Nursing Researchers Hit Campus

A sure sign of summer is the appearance of new youthful faces in various departments, including the School of Nursing. Many of the teen faces in that School belong to the NIH-supported Minority High School Student Research Apprenticeship Program, now in its ninth season at UCSF.

This year's participants include Lowell High School graduate Prem Lall, who is working in the Department of Mental Health, Community & Administrative Nursing, with Mitchell Laplante in the Institute for Health & Aging and in the Office of Research; Maggie Madrigal, a senior at James Logan High School in Union City, also in the Institute for Health & Aging; Aimee Green, a senior at Lowell, with Kathy Lee in Family Health Care Nursing, Albert Benjamin in Social & Behavioral Sciences, and Nancy Stotts in Physiological Nursing; and Cindy Wu, a senior at Philip and Sala Burton High, with Marilyn Savedra on a pediatric pain study and in the Institute for Health & Aging.

The program is coordinated by Gaylene McElwee from the Office of Research; while Estrella Manio, from the Department of Nursing Education in the Medical Center, acts as a resource person for the students. *Note of interest: Estrella's daughter was a participant in the program a few years ago and has since gone on to nursing school.*

Hey Buddy, Can Ya Spare a Microscope?

Have a spare microscope around? What about an incubator, light box, pH paper, or maybe a hot plate? These are the kinds of equipment and supplies needed to help San Francisco middle and high schools to be a part of our Science and Health Education Partnership (SEP) program.

If you have equipment and/or supplies you are not using, SEP would love to take them off your hands and give them a new home in the city's schools. Also needed are good audiovisual materials, such as models of DNA, models of proteins, and good charts of body systems. Sorry, no chemicals or broken equipment will be accepted.

If you would like to make a donation, write the SEP office at Box 0905 or call JoAnne Miller at x60300.

Cancer Center *(continued)*

UCSF already has an extensive range of patient care, diagnostic, education and research activities in place which meet the criteria for such a Center. These are supported by over $20 million in federal grants.

Missing until now in these extensive cancer services and programs, according to Martin, has been a mechanism for coordinated collaboration to maximize care of the patient, enhance teaching and speed up the discovery of new diagnostic methods and knowledge through research.

"This is an exciting prospect," said Krevans. "It means, with the encouragement of the National Cancer Institute and the addition of space and talent at Mount Zion, we will provide the people of Northern California with a complete range of options on cancer treatment, the ability to detect cancer at its earliest (and therefore most treatable) stage, and the practical benefit of new knowledge that research creates. This is the kind of program that David Melnick, chairman of the Mount Zion board of directors, and I envisioned when we first began to talk about the integration of Mount Zion and UCSF."

First steps include:

- A new Melanoma Detection and Treatment Center at Mount Zion. The center, directed by nationally known melanoma expert Richard Sagebiel, already is in operation at UCSF and will be relocated to Mount Zion October 1.
- A new Cancer Triage and Referral Center at Mount Zion, to start early this fall. The center will be available to referring physicians throughout Northern California.
- A multi-disciplinary team of medical oncologists, cancer surgeons, radiation oncologists, immunologists and other specialists at Mount Zion.
- A new John A. Kerner Professorship for Gynecological Cancers in honor of Kerner, who was chief of staff and head of ob/gyn at Mount Zion for many years. It will support research and treatment at Mount Zion for women's cancers of the reproductive tract.

The Mount Zion three-story outpatient building at Sutter and Divisadero, which now houses the Claire Zellerbach Saroni Tumor Institute, will be remodeled and eventually will be the headquarters for the Comprehensive Cancer Center, as well as the Mount Zion components. The Saroni Institute will be renovated and its equipment updated to state-of-the-art technology. It will work in tandem with UCSF's overloaded Walter A. Haas, Jr. Radiation Oncology Pavilion.

Honors & Awards

Martin

Janet Fries

Goyan

Joseph B. Martin: Appointed to the National Advisory Council on Aging by Health & Human Services Secretary Louis W. Sullivan. He and five other new members will play an important role in advising the NIH how best to address the needs of the growing number of people over 65 in this country. Martin is dean, School of Medicine; professor, neurology.

Jere E. Goyan: Appointed to the Pew Health Professions Commission, a national commission that seeks to deal with the changing health care needs of the nation by persuading government, educational institutions and professional organizations to rethink how the next generation of health professionals will be trained. Goyan is dean, School of Pharmacy; professor, pharmacy & pharmaceutical chemistry.

Joseph R. Castro: Invited speaker at the plenary session of the Second European Particle Accelerator Conference held in Nice, France, June 14-16. Castro is professor & vice chair, radiation oncology; director, radiotherapy, Lawrence Berkeley Laboratory.

Appointments

Michaels

Meredith Michaels: Appointed director, community & government relations, University Advancement & Planning. Coming to the UC system in 1985, Michaels worked in the Office of the President for the department of state and federal support programs until 1988. She then worked in UCSF's Office of Public Service Programs as a community & government relations representative for 14 months before returning to the Office of the President to become coordinator, external relations for the capital budget. In her new position, Michaels is UCSF's liaison to Bay Area elected officials, neighborhood associations and community leaders. In addition, Michaels and her staff will assist the campus with community outreach to support the integration with Mount Zion and implementation of the Laurel Heights proposal.

In Memoriam

Day

Barry C. Day: A clinical social worker assigned to the inpatient/outpatient AIDS Service since its establishment in 1984, he was directly responsible for the development of a comprehensive social work program which brought together community services with individual and group counseling for UCSF patients. He developed a continuing education program for the Department of Social Work and was soley responsible for establishing the UCSF Interdisciplinary AIDS Task Force which identifies potential barriers to health care delivery to the AIDS population and makes recommendations for policy changes to Medical Center Administration. In June 1989, Day received an outstanding achievement award for his dedication and commitment as a social worker and his impact on the quality and service delivery of health care to patients.

James A. Barron, III: A member of the UCSF community for 17 years, he was a respiratory therapist from 1973 until 1982. Barron then became a hospital lab technician and began running the blood gas lab. He processed the drawn blood gases, maintained the lab and oversaw quality assurance for the lab's machinery.

Contracts & Grants

Information on contracts and grants is made available to this paper through individual departments, researchers or the funding agency.

Virginia L. Ernster, principal investigator & **Deborah G. Grady,** co-principal investigator: Received $528,184 for *Cigarette Smoking & Facial Wrinkling.* Ernster is professor & chair; Grady is assistant clinical professor, both epidemiology & biostatistics.

Marion M. Lee: Received $581,388 for *Smoking & Passive Smoking in Chinese Americans.* Lee is assistant adjunct professor, epidemiology & biostatistics.

Linda S. Mitteness, principal investigator & **David E. Lewis, Jr.,** co-principal investigator: Received $498,334 for *Management of Smoking by the Elderly in Long-Term Care.* Mitteness is associate professor, medical anthropology; Lewis is fellow, epidemiology & biostatistics.

Styles, Mercer Win National Nursing Awards

Two UCSF School of Nursing faculty members received top national awards at the recent American Nurses Association convention in Boston. Margretta Styles (left) received the American Nurses Association 1990 Distinguished Membership Award for "carving a career in nursing as a role model that nurses of all specialties can emulate with pride." Styles has been involved with the ANA for 30 years, serving as president from 1986-1988. She is professor, mental health, community & administrative nursing. Ramona Mercer (right) received the American Nurses Foundation 1990 Distinguished Contribution to Nursing Science Award for her sustained contribution to nursing research, its influence on the nursing profession, and her impact on nursing and health care in general. Mercer is professor emeritus, family health care nursing.

Behavioral Pediatric Training Program Wins Outstanding Teaching Award

As the season of award winning continues, we add another to the list: The Behavioral Pediatric Training Program has received the 1990 Outstanding Teaching Award from the Ambulatory Pediatric Association. The program is designed to provide child health care professionals with training in bio-psycho-social aspects of child development. The program's directors: (left to right) Charles Irwin, adolescent medicine; J. Lane Tanner and Pamela Kaiser of behavioral and developmental pediatrics; and Pam High, ambulatory pediatrics.

Publications

Kent R. Olsen: Editor, *Poisoning & Drug Overdose: A Lange Clinical Manual* (Appleton & Lange, San Mateo, CA & Norwalk, CT 1990). Olsen is assistant clinical professor, medicine; medical director, Poison Control Cntr., SFGH. Associate editors: **Charles E. Becker,** professor, medicine; **Neal L. Benowitz,** professor, medicine; **James F. Buchanan,** assistant clinical professor, pharmacy; **Frank J. Mycroft,** assistant clinical professor, environmental health; **John D. Osterloh,** associate professor, clinical laboratory medicine; and **Olga F. Woo,** assistant clinical professor, pharmacy.

Elliot Rapaport: Editor, *Early Interventions in Acute Myocardial Infarction* (Kluwer Academic, Boston 1989). Rapaport is associate dean, SFGH School of Medicine; professor, medicine; chair, cardiology, SFGH.

Herb Dedo: Author, *Surgery of the Larynx & Trachea* (B.C. Becker, Phila. 1990). Dedo is vice chair & professor, otolaryngology.

Ronald D. Miller: Author, *Basics of Anesthesia* (Churchill Livingstone, NY 1989). Miller is professor & chair, anesthesia & pharmacology.

Michael F. Roizen: Editor, *Anesthesia of Vascular Surgery* (Churchill Livingstone, NY 1990). Roizen is associate clinical professor, anesthesia.

Mary Helen Briscoe: Author, *A Researcher's Guide to Medical & Scientific Illustrations* (Springer-Verlag, NY 1990). Briscoe is senior medical illustrator, CVRI.

Lawrence M. Tierney, Stephen J. McPhee, and Steven A. Schroeder: Co-editors, *Current Medical Diagnosis & Treatment 1990* (Appleton & Lange, San Mateo, CA & Norwalk, CT 1990). Tierney is professor, medicine; assistant chief, medical services, VAMC. McPhee is associate professor, medicine. Schroeder is former chief, general internal medicine; former professor, medicine; now president of the Robert Wood Johnson Foundation.

Does Starting School Give Kids Colds?

Does your child start kindergarten this fall? If so, you might like to be part of a study which will examine whether the stress of starting school affects the immune system and influences the child's chances of getting colds and other common respiratory infections. Being in the study includes two visits to UCSF. Families will be reimbursed $50 for participating. For further information call Beth Chesterman in the Division of Behavioral Pediatrics, x64575.

Today/Tomorrow

30 Monday

BREAST CANCER SCREENING SCHEDULE

Women can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes & costs only $50. To make an appointment call x62193 between 9 a.m. & 3:30 p.m.

The van will be at the following locations for the next four weeks:

- July 30-Aug. 3: Marina Green, in parking lot near Goodwill shed & Ft. Mason.
- Aug. 6-10: Taraval St., between 17th & 18th Aves.
- Aug. 13-17: Embarcadero, on Drumm St. between Sacramento & Clay Sts.
- Aug. 20: Los Altos Senior Center. Call Judy Sidebottom at 948-7483 for appointment.
- Aug. 21: Little House Senior Center, Menlo Park. Call Maxine Beck at 326-2025 for appointment.
- Aug. 22-23: Twin Pines Senior Center, Belmont. Call Debbie Yoder at 595-7444 for appointment.
- Aug. 24: Diamond Heights, on Diamond Heights Blvd. next to Safeway.

OTOLARYNGOLOGY GRAND ROUNDS. S 214. 8-10 a.m.

VAMC NEURORADIOLOGY ROUNDS. Rm. 2A56, VAMC. 8:30-9:30 a.m.

OVEREATERS ANONYMOUS MEETING: *The "H.O.W." Concept.* A more structured approach to over-eating. Speaker & discussion. N 417. Noon. Call Lia, x64251.*

OVEREATERS ANONYMOUS MEETING: Regular OA discussion meeting. N 717B. Noon.*

DERMATOPHARMACY/DERMATOTOXICOLOGY SEMINAR: *IPPSF in Modelling Percutaneous Absorption.* J.E. Riviere, NC State. HSE 733. 12:10-1 p.m.

CORE CURRICULUM IN LABORATORY MANAGEMENT: *The Pathologist & Hospital Administration & Hospital Staff Committees.* Howard I. Finkle, Lab. Med. L 535. 2-3:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Melanoma at Lawrence Livermore.* Dan Moore, Biomed. Sci., LLNL. L 535. 4-4:50 p.m.

31 Tuesday

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: Resident Forum. C 701. 8 a.m.

TRANSFUSION RESEARCH FORUM: *Pseudotyping of HIV.* Dan Littman, Microbio/Immun. L 535. 8:30 a.m.

SFGH PEDIATRICS GRAND ROUNDS: *Demographic Profile of Children in SF.* Margaret Brodkin, Coleman Advocates for Children & Youth. Carr Aud., SFGH. 8:30-9:30 a.m.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

SUMMERTIME BLOOD DRIVE

The Blood Donormobile from Irwin Memorial Blood Centers will be on Parnassus Ave. across from Millberry Union. No appointment necessary. 11 a.m.-5:30 p.m.*

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

VAMC EEG READING SESSION. Bldg. 203, Rm. 2A49, VAMC. 2:30 p.m.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

NEUROLOGY GRAND ROUNDS: *The Stiff-Man Syndrome.* Robert B. Layzer, Neuro. S 664. 5-6 p.m.

1 Wednesday

PLASTIC SURGERY GRAND ROUNDS: *Problem Cases.* Thomas Huntsman, Joseph Kiener, Edmund Ritter, Philip Trabulsy, all Plast. Surg. Davies Med. Cntr. 7-8 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call coordinator Barbara Blakely, x61662.

DERMATOLOGY CONFERENCE: *Steroid-Induced Osteoporosis.* Steven Harris, Derm. HSW 301. 8-9 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Malathion Aerial Spraying: Assays for Genotoxic Effects on Humans.* Kim Hooper, Repro. Toxicol., Dept. Hlth. Serv. A 455. 8-9 a.m.

LABORATORY OF RADIOBIOLOGY & ENVIRONMENTAL HEALTH SEMINAR: *Radiation-Activated DNA Binding Proteins in Human Cells.* Martin Lavin, Queensland Inst. of Med. Res., Brisbane, Australia. LR 213. Noon.

FINAL FOG FUN FESTIVITY

Alan Tower & Friends. Original folk-influenced jazz with classical & new age feel. Sponsored by Arts & Performances, EMPACT! & the Plaza Grill. Plaza Grill. Noon.*

BROWN BAG LECTURE SERIES: *New Developments: Cosmetic Dentistry.* Alton Lacy, Dent. HSW 300. Noon-1 p.m. Call x64394.*

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. MCB, Rm. 300C. 12:05 p.m.*

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

2 Thursday

SFGH NEUROLOGY/NEUROSURGERY CONFERENCE. 4H2, SFGH. 8-9 a.m.

MEDICINE GRAND ROUNDS: *Clinicopathologic Conference.* Lawrence M. Tierney, Jr., Med. & Med. Serv., VAMC. Toland Hall. 8-9 a.m.

PEDIATRICS GRAND ROUNDS: *Jaundice in the Term Newborn Infant.* Thomas B. Newman, Ped. & Epid. & Biostat. S 664. 8:30-9:30 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

FAMILY & COMMUNITY MEDICINE/PRIMARY CARE LECTURE SERIES: *Ambulatory Assessment & Management of Hyperlipedemia.* Robert Baron, Clin. Med., Med. & Prim. Care. A 455. 10 a.m.-noon.

PEDIATRIC TUMOR CONFERENCE. L 34. 11 a.m.-12:15 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

ORTHOPEDIC SURGERY STAFF CONFERENCE. A 630. 4-5 p.m.

PRIMARY CARE GRAND ROUNDS. A 455. 4:30 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5:15-6:30 p.m.

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. LPPI A 222. 6 p.m.*

CAN YOU RECOGNIZE A HEART ATTACK?

Heart Attacks: Can You Recognize & Respond? Karen Straine, Cntr. for Pre-Hosp. Res. & Training. A Community Health Talk sponsored by Public Serv. Prog. HSW 300. 7-8:30 p.m. Free parking available. Call x63206 for information.*

3 Friday

CRI HEMATOLOGY/ONCOLOGY JOURNAL CLUB. M 1296. 8 a.m.

CHILDREN'S FILM SERIES

Cinderella. Fifth in a series of six films. Children 12 & under $2; students, seniors & MU members (with ID) $2.50; general $3. Grandparents go free when accompanied by grandchildren. For special group rates (10 or more) call x62542. Cole Hall. 10:30 a.m., 1:30 p.m. & 6:30 p.m.*

CO-DEPENDENT ANONYMOUS HEALTH-WORKERS MEETING: Open to UCSF-SFGH employees. Main Hosp., Rm. 4H-40, SFGH. Noon.

DON'T MISS THE DEADLINE

If you would like an item listed in the next calendar, which covers Aug. 25-Sept. 14 (three weeks), it must be received in our office in writing by Tues., Aug. 14, at 11 a.m. Send your copy to Michele Firpo, Box 0462, or call x61541.

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

PATHS OF HEALING & WHOLENESS: *The Unknown Healer Within Us.* C.R. Goswami. N 721. Noon. Call Marie Lehrer at x63939 for information.*

4 Saturday

FLORAL DESIGN WORKSHOP

Creative Continental Floral Design. Alisa A. de Jong-Stout, floral design instructor, deYoung Museum & Merritt College. Sponsored by Women's Res. Cntr. $15-$25 with $12.50 materials fee. N 417. 9:30 a.m.-1 p.m. Call x65836 to register & for details about what you need to bring.*

6 Monday

DRUG ABUSE & AIDS

A four-hour free community morning forum on drug abuse treatment, social policy & AIDS. Featuring presentations by UCSF AIDS researchers who were at the Sixth International Conference on AIDS. UCSF-Laurel Heights Conf. Cntr., 3333 California St. 8:30 a.m. Call 255-3519 for further information.*

OVEREATERS ANONYMOUS MEETING: *The "H.O.W." Concept.* A more structured approach to over-eating. Speaker & discussion. N 417. Noon. Call Lia, x64251.*

OVEREATERS ANONYMOUS MEETING: Regular OA discussion meeting. N 717B. Noon.*

DERMATOPHARMACY/DERMATOTOXICOLOGY SEMINAR: *Environmental Effects on Allergic Contact Dermatitis.* Klaus Andersen, Derm., U Hospital, Odense, Denmark. HSE 733. 12:10-1 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Drug Design Based on Molecular Modeling of Parasite Proteases.* James H. McKerrow, Anat. Path., VAMC. L 535. 4-4:50 p.m.

7 Tuesday

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Jaw Growth & Remodeling.* Ib Nielson, G & D. C 701. 8 a.m.

SFGH PEDIATRICS GRAND ROUNDS: *Coma.* Roger Simon, Neuro. Carr Aud., SFGH. 8:30 a.m.

TRANSFUSION RESEARCH FORUM: *Development of Co-amplification & Quantitative PCR Methodologies for Evaluating HIV Proviral Loads.* Tzong-Hae Lee, Irwin Mem. Blood Cntrs. L 535. 8:30 a.m.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

VAMC EEG READING SESSION. Bldg. 203, Rm. 2A49, VAMC. 2:30 p.m.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

NEUROLOGY GRAND ROUNDS: *Ethanol-Responses Neuronal Gene Expression.* Michael Miles, Neuro. S 664. 5-6 p.m.

8 Wednesday

PLASTIC SURGERY GRAND ROUNDS: *Fetal Wound Healing: An Update.* Michael Longacker & Brent Moelleken, both Surg. Toland Hall. 7 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call coordinator Barbara Blakely, x61662.

DERMATOLOGY CONFERENCE: *Genetic Mosaicism in Dermatology.* R. Hepple, U Nymegen, the Netherlands. HSW 301. 8-9 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Back Injury Prevention Program.* William Charney, Env. Hlth., SFGH. SFGH, Bldg. 30, 5th fl. 8-9 a.m.

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

BROWN BAG LECTURE SERIES: *Strategies for Optimal Aging.* Robert W. Lutz, Med. & Pain Mngt. Cntr. HSW 300. Noon-1 p.m. Call x64394.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. MCB, Rm. 300C. 12:05 p.m.*

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

SFGH GI MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

9 Thursday

MEDICINE GRAND ROUNDS: *Evolution of the Treatment of Rheumatoid Arthritis.* Kenneth H. Fye, Med. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY/NEUROSUGERY CONFERENCE. 4H2. 8-9 a.m.

PEDIATRICS GRAND ROUNDS: *Nephrotic Syndrome.* Anthony Portale, Ped. & Med. S 664. 8:30-9:30 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

FAMILY & COMMUNITY MEDICINE/PRIMARY CARE LECTURE SERIES: *Colon Cancer Screening.* Michael Darby, Med. *Legal Medicine.* Dan Tennenhouse, Fam. Comm. Med. & Physio. Nurs. A 455. 10 a.m.-noon.

PEDIATRIC TUMOR CONFERENCE L 34. 11 a.m.-12:15 p.m.

BUDDHIST HEALER ON TIBETAN MEDICINE

Tibetan Medicine. Gangchen Rinpoche, Buddhist lama healer, featured in this special Paths of Healing & Wholeness Seminar. N 721. Noon. Call Marie Lehrer at x63939 for information.*

A POSITIVE LOOK AT DISABLED WOMEN

Positive Images: Portraits of Women with Disabilities. Discussion leader: Noemi Sohn, Rape Prev. Educ. Cntr. Women's Summer Film Series sponsored by Women's Resource Cntr. Toland Hall. Noon-1 p.m. Call x60400 for more information.*

GERIATRICS GRAND ROUNDS: *Exercise for Prevention & Treatment in Older Persons.* David H. Solomon, Med., UCLA. Herbst Hall, Mt. Zion. Noon.

CO-DEPENDENT ANONYMOUS HEALTH-WORKERS MEETING. Open to UCSF-SFGH employees. Main Hosp., Rm. 4H-40, SFGH. Noon.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

ORTHOPEDIC SURGERY STAFF CONFERENCE. A 630. 4-5 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 4-5:30 p.m.

PRIMARY CARE GRAND ROUNDS. A 455. 4:30 p.m.

ALCOHOLICS ANONYMOUS MEETING: Closed meeting—alcoholics only. LPPI A 222. 6 p.m.*

COCAINE & BABIES

Cocaine Exposed Babies: Medical & Psychological Effects. Lora-Ellen McKinney, Clearinghouse for Drug Exposed Children; Behav. & Dev. Ped. Sponsored by Public Serv. Prog. UCSF-Laurel Heights Aud., 3333 California St. 7-8:30 p.m. Free parking available. Call x63206 for information.*

***Open to the public.**

July 28-Aug. 24, 1990

10 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

CRI HEMATOLOGY/ONCOLOGY JOURNAL CLUB. M 1296. 8 a.m.

CHILDREN'S SUMMER FILM SERIES: *Babar the Movie.* Last in a series of six films. Children 12 & under $2; students, seniors & MU members (with ID) $2.50; general $3. Grandparents go free when accompanied by grandchildren. For special group rates (10 or more) call x62542. Cole Hall. 10:30 a.m., 1:30 p.m. & 6:30 p.m.*

CO-DEPENDENT ANONYMOUS HEALTH-WORKERS MEETING: Open to UCSF-SFGH employees. Main Hosp., Rm. 4H-40, SFGH. Noon.

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

PATHS OF HEALING & WHOLENESS: *Psychic Healing Demystified.* Petey Stevens. N 721. Noon. Call Marie Lehrer at x63939 for information. (Also see Mon., Aug. 13.)*

11 Saturday

UROLOGY GRAND ROUNDS. HSW 300. 8:30-10 a.m.

UCSF COMMUNITY CHORUS PERFORMS

Verdi Requiem. A summer concert by the UCSF Community Chorus & the SF Choral Society. Davies Symphony Hall, Van Ness & Grove. $8-20. 8 p.m. Call 566-8096 for ticket information.*

13 Monday

OVEREATERS ANONYMOUS MEETING: *The "H.O.W." Concept.* A more structured approach to over-eating. Speaker & discussion. N 417. Noon. Call Lia, x64251.*

OVEREATERS ANONYMOUS MEETING: Regular OA discussion meeting. N 717B. Noon.*

LABORATORY MEDICINE GRAND ROUNDS: *Who Should Decide on Life-Sustaining Treatment: Judges or Family?* Bernard Lo, Med. L 535. 4-4:50 p.m.

HOW TO BE A PSYCHIC HEALER

Introduction to Basic Psychic Healing. Petey Stevens teaches this Paths of Healing & Wholeness follow-up workshop. N 717. 7-9 p.m. $20. Call Marie Lehrer at x63939 for information.*

14 Tuesday

ORAL & MAXILLOFACIAL SURGERY CONFERENCE: *Neurologic Examination of Trauma Patients: Review of Cervical Spine Injuries.* Brian Andrews, Neurosurg, SFGH. C 701. 8 a.m.

A CASE FOR CULTURAL DIVERSITY

Valuing Cultural Diversity in the Workplace. Brigadier General Clara Adams-Ender, US Army Nurse Corps. Part of a free public seminar sponsored by Dept. Nurs. & Affirmative Action. Cole Hall. 8 a.m.-noon. Call x62993 for information. (See story on page 8.)*

TRANSFUSION RESEARCH FORUM. L 535. 8:30 a.m.

SFGH PEDIATRICS GRAND ROUNDS: *Recent Developments in Pediatric Trauma.* Peggy Knudsen, Surg., SFGH. Carr Aud. 8:30-9:30 a.m.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

VAMC EEG READING SESSION. Bldg. 203, Rm. 2A49, VAMC. 2:30 p.m.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

NEUROLOGY GRAND ROUNDS. S 664. 5-6 p.m.

15 Wednesday

COMBINED PLASTIC SURGERY/ORTHOPEDIC HAND SURGERY GRAND ROUNDS: *Arthritis of the Hand & Wrist.* Kenneth E. Sack, Arth/Rheum. Toland Hall. 7-8 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call coordinator Barbara Blakely, x61662.

DERMATOLOGY CONFERENCE. HSW 301. 8-9 a.m.

BROWN BAG LECTURE SERIES: *Food for Thought: How Diet Affects Our Mental Health.* Kim Peter Norman, Psych. & Eating Disorders Clin. HSW 300. Noon-1 p.m. Call x64394.*

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. MCB, Rm. 300C. 12:05 p.m.*

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

SFGH GI MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

LIVING WITH HIV

Romance & HIV: Sex, Love & Dating in the Age of HIV. Panel discussion moderated by Michael C. Botkin, Positives Being Positive. MCB, Rm. 125. 7-9 p.m. Call x66430 for information.*

16 Thursday

MEDICINE GRAND ROUNDS: *Practical Suggestions for the Treatment of Anxiety Disorders.* Richard Lieberman, Med. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY/NEUROSURGERY CONFERENCE. 4H2. 8-9 a.m.

PEDIATRICS GRAND ROUNDS: *Childhood Ataxia.* Gregory P. MacDonald, Ped. Neuro. S 664. 8:30-9:30 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

FAMILY & COMMUNITY MEDICINE/PRIMARY CARE LECTURE SERIES: *Ambulatory Assessment & Management of Hypertension.* Dorothee Perloff, Med., EKG & Hyperten. Clin. A 455. 10 a.m.-noon.

PEDIATRIC TUMOR CONFERENCE. L 34. 11 a.m.-12:15 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

ORTHOPEDIC SURGERY STAFF CONFERENCE. A 630. 4-5 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 4-5:30 p.m.

PRIMARY CARE GRAND ROUNDS. A 455. 4:30 p.m.

ALCOHOLICS ANONYMOUS MEETING: Closed meeting—alcoholics only. LPPI A 222. 6 p.m.*

PLASTIC SURGERY LECTURE/DINNER MEETING: *Secondary Breast Reconstruction: An Analysis of Persistent Deformities & Their Correction.* Stephen J. Mathes, Surg. & Plast. & Reconstr. Surg. Faculty/Alumni House. Dinner 6 p.m. Lecture 7 p.m. For reservations call x63061.

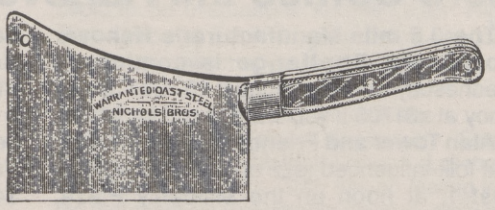
17 Friday

SFGH NUCLEAR MEDICINE/RADIOLOGY CONFERENCE. Rm. 1X58, SFGH. 7:45-9 a.m.

CRI HEMATOLOGY/ONCOLOGY JOURNAL CLUB. M 1296. 8 a.m.

CO-DEPENDENT ANONYMOUS HEALTH-WORKERS MEETING: Open to UCSF-SFGH employees. Main Hosp., Rm. 4H-40, SFGH. Noon.

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*



PATHS OF HEALING & WHOLENESS: *Household Hazards.* Thea Basis. N 721. Noon. Call Marie Lehrer at x63939 for information.*

CONTINUING EDUCATION

MEDICINE
For program information call x64251, registration x65208 unless otherwise noted.

Preventing Malpractice in Emergency Medicine. Honolulu, Hawaii. Aug. 28-31.

Uveitis Frontiers. Carmel, CA. Sept. 28-29.

WOMEN'S RESOURCES

Sponsored by UCSF Women's Resource Center unless otherwise noted. Call x60400 for recorded program information.

GROUPS
Ongoing noontime drop-in groups for women working or studying at UCSF.

Women Living with Life-Altering Illness. C 130. Every other Monday.

Lesbian Lunch Group. C 213. First & third Mon. of each month.

Latin Women Coalition. Meeting dates & places vary. Call Silvia Molina at x64451.

Circle of Sisters. Black women's group. L 535. Every Fri.

Support Group for Divorced & Separated Women. C 130. Every Tues.

Benefits/Personnel

MAP Award Winners

Chancellor Krevans (back row, far left) stands with the 1989-90 MAP (Managaement & Professional) Incentive Award winners. They are (seated) John Ungaretti, Accounting; Susan Garritson, LPPI; (standing, left to right) Serge Coutant, Clinical Labs at SFGH; Jeanne Coombs, Chancellor's Office; Mitsuaki Arakawa, Radiology; Carolyn Somelofski, Cardiology at SFGH. Missing: Martha Hooven, Ob/Gyn; Raymond Buck, CPO Administration; Janet Norton, News & Public Information; Eric Vermillion and Remi Barron, Capital Resource Management.

How to Get a Job

Qualified UCSF employees are urged to apply for open positions. The "Employee Opportunities" flyer lists current openings. The flyer is posted weekly in four locations: The main personnel office, the satellite office on the first floor at UCSF-Mission Center, in the hallway west of the cafeteria in Moffitt Hospital and in the Women's Resource Center.

The "Open Until Filled" list can be viewed at the main personnel office and the MCB satellite. Lists are updated Thursdays.

Personnel is located at 1350-7th Avenue. Business hours are 8 a.m. to 5 p.m. Monday through Friday, and until 6:30 p.m. on Wednesday. For job-related information, call x61645.

Promotions

Promotions are made available to this publication after they are processed by the Personnel Department.

Michael McDonald, principal administrative analyst I, dentistry.

Gailene McElwee, administrative assistant II, School of Nursing.

Ann Melby, project data assistant II, LPPI-research.

Karen Metro, programmer analyst II, ITS-computer center.

Karen Moisa, administrative analyst, transplant service.

Carol Montgomery, administrative assistant I, anesthesia.

Michele O'Rourke, administrative assistant III, CPO/Health Net.

Miriam Pagan, administrative assistant I, orthopaedic surgery-SFGH.

Bennie Page, administrative assistant I, physiology.

Gianna Perez, administrative assistant III, materiel management.

Nestor Santiago, senior laundry machine operator, laundry/linen services.

Richard Shanks, staff research associate I, anesthesia.

Ken Smigilshi, principal food service supervisor, nutrition & dietetics.

Barbara Smith, administrative assistant III, student relations/student business services.

Gina Sucato, administrative assistant I, environmental health & safety.

Howard Tisdale, associate environmental technologist, environmental health & safety.

Nancy Walters, administrative assistant III, School of Pharmacy Dean's Office.

Janice Westenhouse, staff research associate III, stomatology/oral biology.

Mary Whitney, administrative assistant III, medicine.

Sheila Wills, purchasing assistant II, information technology services.

Kelly Woo, food service worker, nutrition & dietetics.

Service Awards

Richard Morgan, 25 years, nutrition & dietetics.

Thelma Murakami, 25 years, nutrition & dietetics.

Gary Niebaum, 15 years, anesthesia, SFGH.

Shiro Nishiyama, 35 years, mail services.

John P. O'Connor, 10 years, dentistry.

Merideth K. O'Connor, 10 years, surgery.

Purita Pascual, 15 years, nutrition & dietetics.

Maria M. Perea, 15 years, LPPI.

Adrith J. Perry, 15 years, EKG.

Barbara A. Ransom, 20 years, nursing.

Joseph Ray, 10 years, accounts receivable.

Helen N. Roth, 30 years, LPPI.

Pamela Royse, 15 years, LPPI.

Sonia D. Silva, 10 years, surgery.

Phyllis Stargell, 15 years, operating room.

Lionel Stockman, 15 years, nutrition & dietetics.

Jessie R. Thompson, 20 years, dialysis unit.

Carol D. Tisnado, 15 years, LPPI.

William B. Toscano, 10 years, LPPI.

Patricia Van Atta, 15 years, restorative dentistry.

Jeffrey Wall, 20 years, clinical labs.

Jeffrey Watts, 15 years, radiology.

Marcia K. Welch, 15 years, LPPI.

Sidney West, 15 years, LPPI.

Mary M. Williams, 25 years, oncology/hematology clinic.

Sandy J. Wong, 10 years, otolaryngology.

Peter Zamora, 20 years, nutrition & dietetics.

How Are the Funds Performing?

For those invested in the 403(b) Plan and the After-tax Plan, here are the latest unit values and monthly factors (as of June 30). If you have questions, please call x69256.

	Monthly Factor	Current Rate
Savings	.0067	8.12%
Money Market	.0067	8.20%
GIC	.0071	8.64%

	Unit Value	1-Month Change	12-Month Change
Bond	$39.26	2.3%	4.2%
Equity	$67.02	-1.0%	17.3%

Here's Your Invitation to Join ABOG

If you're an A&PS, MAP or executive level employee, you're eligible to join ABOG, the UCSF Academic Business Officers' Group. The group recently published a brochure explaining its purpose and activities, which you may acquire by calling ABOG chair Martha Hooven, x65904. Basically, the group serves as a forum for idea exchange and a means for members to get involved in the broader campus environment. ABOG meets monthly, usually in a seminar format with guest speakers. The group also sponsors periodic luncheon meetings and day-long workshops on various managerial issues.

New "Living Needs" Life Insurance Option

Members of the employee-paid life insurance plan are eligible for a new option: A "living needs benefit." Also called an "accelerated death benefit," the new option allows terminally ill employees to draw on their life insurance benefits before death. The money can be used for any purpose.

Members who choose this option can receive 25% of their total coverage amount under the plan, up to $50,000. The amount that otherwise would be payable to beneficiaries upon the employee's death is reduced by the amount paid to the employee under the living needs option. For further information, contact the Benefits Office, x61400.

Stay Tuned for More News on Raises

Right now, all anyone knows is that the State budget is in dire straits this year; that the anticipated shortfall for the University as a whole may be as much as $340 million; and that staff merit increases have been postponed for six months. It appears that the 5% cost of living increase effective January 1, 1991, will remain in the budget and the University will find a way to fund merit increases effective January 1, 1991.

This information was extracted from a memo from Chancellor Krevans dated June 29, in which he thanked members of the campus community for their contributions to the successful passage of Props 111 and 121. In the long run, he says, the passage of the two propositions should mean that revenues will become available to restore the severe budget reduction the University will be experiencing this fiscal year.

No Payroll Deduction on $50 & $75 Bonds

The US Department of Treasury has announced that effective October 1, 1990, $50 and $75 denomination US Savings Bonds, Series EE, will no longer be issued through payroll savings plans. The minimum denomination bond available through payroll deduction will be the $100 bond, which has a purchase price of $50.

The last UC payroll deduction for $50 and $75 bonds will be taken from September paychecks (August earnings). To comply with the October 1 effective date, participants should increase or cancel payroll deductions for $50 and $75 bonds and submit a new authorization form to Payroll in time for payroll deadlines for October paychecks. If you fail to take action, payroll authorization for $50 and $75 bonds will be cancelled automatically. Your department benefits rep can help you with forms and deadlines.

Fun Zone

UCSF Wins the Office Olympics

These four—(left to right) Laurie Williams, George Hair, Gail Mametsuka and Kevin Morrisette, all Millberry Union/EMPACT! staff members—are number one in San Francisco when it comes to pushing paperclips, flipping file folders, and any number of other difficult tasks they had to master to win the citywide Office Olympics sponsored by KOFY Radio a couple of weeks ago. Their prize included a TV appearance and many comp tickets to local fun spots, not to mention all the wonderful acclaim they have brought to UCSF. The event took place downtown in Justin Herman Plaza.

Here Comes the Hanover Run

- **The 3.5 mile Manufacturer's Hanover Corporate Challenge** is coming up Wednesday evening, August 15. Call Jimmy Choy at x61700 if you want to run for UCSF.
- **Alan Tower and Friends** will perform original folk-influenced jazz on Wednesday, August 1, at noon on the Millberry Plaza. Presented as part of the Fog Fun series by Arts & Performances, EMPACT! and Plaza Grill.
- **The UCSF Community Chorus** and San Francisco Choral Society will perform the *Verdi Requiem* at Davies Symphony Hall on Saturday, August 11, 8 p.m. $8 to $20. Call 566-8096 for ticket information.
- **Go to Bay Meadows with EMPACT!** on Saturday, August 25. Post time 1 p.m. Grandstand open terrace seating with box lunch, $12. Tickets available at MU Central Desk.
- **Massage Workshop** Saturday, September 8, 10 a.m. to 5 p.m. Presented by Velina Vassar, certified massage therapist. $46/$60. Register at Millberry Fitness Center. Call x61115 for more information.
- **Group adventures, sailing classes, whitewater rafting,** call Outdoors Unlimited for all the possibilities, x61469.
- **Discount tickets:** Movies, Marine World Africa USA, Great America, Giants, A's, Oakwood Lake Resort, Holy City Zoo Comedy Club. Purchase at MU Central Desk.

Medsounds Continued

Dietetic Intern Director Gets a New Job (But Keeps the Old One)

Nutrition & Dietetics' Carol Porter is celebrating her 20th anniversary as the director of the Dietetic Internship Program by getting a new hat (to go with her old one). She is the new chief dietitian, as well as designee of the umbrella title "Associate Director, Division of Nutrition Services."

Actually, only the official title is new. She already had carried the dual role for a year, filling in as interim chief dietitian while she continued to direct the internship program. (They're hoping to have an assistant director in place soon.)

The new position puts her in charge of all the inpatient and outpatient clinical nutritionists and related personnel affiliated with the department, plus the eight interns who rotate through the Medical Center on an annual basis.

Carol's 20th anniversary supervising the latter group coincides with the 55th class of interns taking their training here at the Medical Center. Since 1936 the department has offered the program, which consists of a year of classroom and on-the-job experience. The interns all have degrees in nutrition, often a master's, and are here to complete the program as a requirement for their RD (registered dietitian) license.

Carol's own experience here began as a clinical nutritionist in 1969. Not long after her arrival she took over the internship program. A few years after that she started in on her PhD in nutritional sciences at UC Berkeley, a project that ended up taking a pretty good chunk of time to complete—especially since it coincided with raising twins.

She tells the story of how, on that final day when the dissertation was done and defended, one of her daughters, nine by that time, piped up, "*Now* can you take us to Great America?"

Carol Porter, new chief dietitian

Nutrition & Dietetics' 55th class of dietetic interns arrived this month: (clockwise from left) Irene Romano, Thomas Vizioli, Jill Jarvie, Susan Gardner, Sonja Lindquist, Mary Ott, Susan Bernheimer and Lori Parson. Carol (far right) is demonstrating equipment that determines energy expenditure by measuring and comparing the amount of oxygen consumed to carbon dioxide expelled. Carol and clinical nutritionist Annette Stralovich currently are involved in a study in which this machine plays an integral part: They're looking at energy expenditure in bone marrow transplant patients.

Random Shots

Ike Mitchell

Position: Senior radiologic technologist.

Years at UCSF: 15, including two years in the radiologic technology training program (which no longer exists).

Shift: Works nights, midnight to 8 a.m. Covers entire hospital with one other radiologic technologist.

Why he likes the night shift: Plays tennis all day. Since 1981 has volunteered as a tennis instructor at the Ella Hill Hutch Community Center at McAllister and Webster. Teaches kids from all over the city, from 10 years old on up. Has produced several stars, including one Washington High School youth who has won the all-city championship two years in a row.

How tennis entered his life: Learned as an adult; the game caught his fancy, so he taught himself at the courts in the park. Used to compete until teaching took over his time. Started teaching on a casual basis, giving a few pointers here and there. He noticed a talent for it; got his USPTA license ("People like to see a paper"); now has up to 40 budding players under his tutelage at any given time. Many are from underprivileged homes. "It's something to give them pride."

Other sports? Avid runner. Years ago he entered races, but now would rather spend the time teaching tennis. Jogs every morning after work. Goes in for endurance running in the sand. Sometimes he takes his tennis players with him to the beach.

When does he sleep? In the evening—after tennis, before work. On weekends he reverts to sleeping at night and getting up in the morning.

Background: Grew up in Donaldsonville, Louisiana. Parents wanted him to be a mortician, and he started on-the-job-training at an early age. Didn't turn out to be the right career for him. Left home with the Job Corps and eventually wound up in Bay Area. Was trained in electronics and culinary arts. To this day his cooking is terrible and he can't fix anything electrical, but somewhere along the line he got a job at St. Mary's in the ER. He was interested in everything. He became friends with a radiologic technologist whom he respected very much. "I remember admiring how sure he was of himself. I wanted to be like that." He applied to two training programs and was accepted in the UCSF program. When he finished the program he took a position in the department—yes, the same one he has today—night shift technologist. But he likes the work. He enjoys the independence that comes with the night hours, and sees no reason to change.

More about Ike: Studies French and piano on the side. Tries to practice the piano every day. Secret (no longer) hobby is songwriting. Has written quite a few. His younger sister is studying to be a singer. Maybe someday she'll record songs that he wrote.

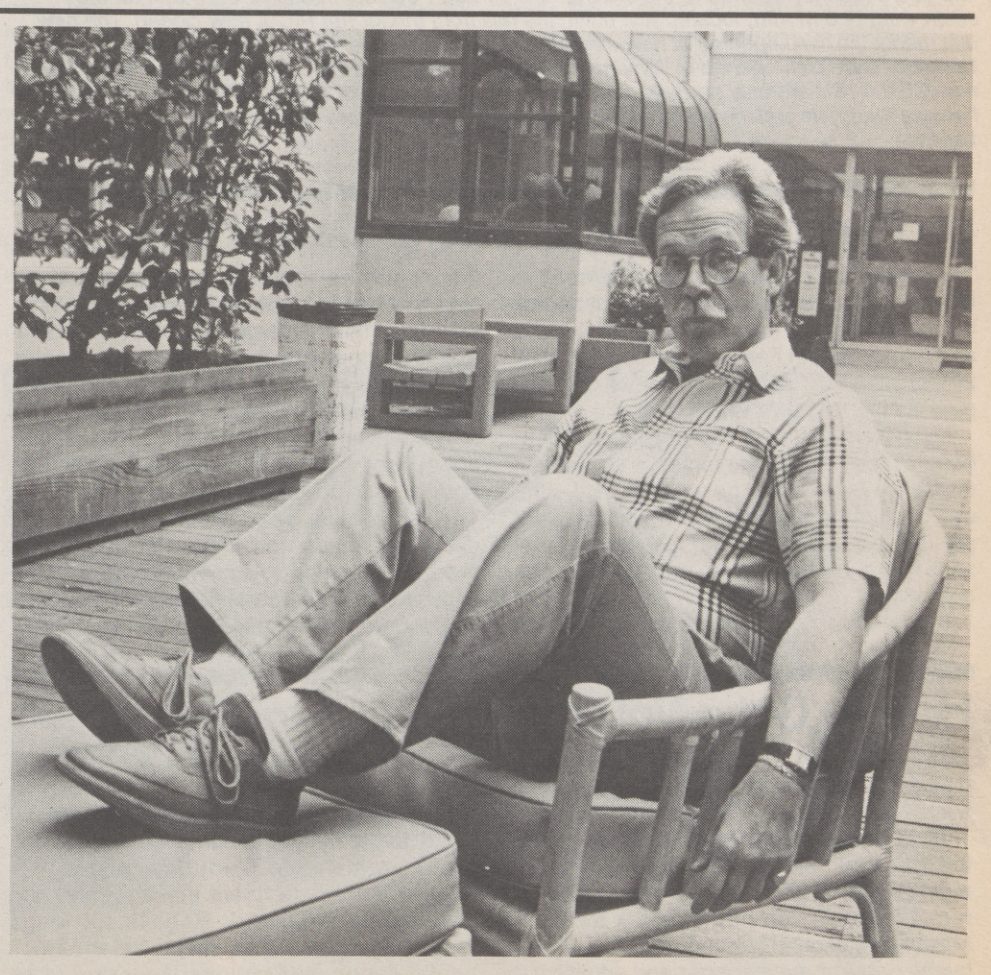
Says supervisor Kathy Marr: "We keep hoping that one of these days Ike will get a big award for all his public service—not to mention his faithful contribution here over the years."

"Save the Feet" *(continued)*

Since nerve problems rob many diabetics of some or all feeling in their feet, a pinching shoe, cut, sliver or other trauma can go unnoticed until an ulcer appears and danger already exists. A new development that has furthered early detection efforts is a high-tech wonder called "Emed." As a patient walks on a sensor plate, the Emed computer provides a pressure analysis that pinpoints vulnerable tissue and the shape of danger spots. This information can be used to create protective insoles and custom shoes.

Custom footwear is a specialty of the program. In fact, Stess and Graf point to the development of the "San Francisco Custom-Molded Shoe" as one of their foremost accomplishments. In addition to the role of protecting the foot, the shoes are designed to be affordable and good looking. As one of their patients points out, "They're a far cry from the 'Frankenstein shoes' we used to have to wear."

Stess and Graf take time out from their VA clinic to do evaluations for the UCSF High-Risk Diabetic Foot Program each Monday. For further information, call x61104.



Greg Olsen, grants coordinator in the Department of Pediatrics, displays his "San Francisco Custom-Molded Shoes." A diabetic for the past 22 years, Greg has no feeling in his feet clear up through his calves—making him a prime candidate for the kind of foot problems that can result in amputation. Greg was one of the first to try the custom shoes developed by VAMC researchers as part of a high-risk foot management program now available through the Diabetes Clinic at UCSF.

"Bearly New" Could Use Your Discards

The Auxiliary's "Bearly New" Thrift Shop on Fillmore has been doing a booming business, but their supplies need replenishing. If you have good used clothing, accessories, toys, lamps or other small household items, please bring them to 1752 Fillmore Street, Monday through Saturday, 10 a.m. to 5 p.m. All net profit from the thrift shop goes toward the Auxiliary's projects in the Medical Center. Call 921-2789 if you have questions.

Don't Miss Brigadier General Clara Adams-Ender August 14

Brigadier General Clara Adams-Ender is chief of the US Army Nurse Corps, a position that puts her over approximately 40,000 people around the world.

As far as she is concerned, cultural diversity in the workplace not only is a given in this day and age, but also a great enhancement. As a speaker she reportedly addresses this subject with much enthusiasm and eloquence—which is great, since she's coming to UCSF on Tuesday, August 14, to speak to us on the subject.

General Adams-Ender is the featured speaker at a seminar sponsored by the Medical Center's Department of Nursing and the campus Affirmative Action Office. She will open the program with her presentation, "Valuing Cultural Diversity in the Workplace," at 9 a.m. in Cole Hall. A continental breakfast at 8 a.m. will precede her talk and a panel discussion with UCSF and community representatives will follow. There is no charge to attend, and the entire campus community is invited to all or part of the program. The program will close at noon.

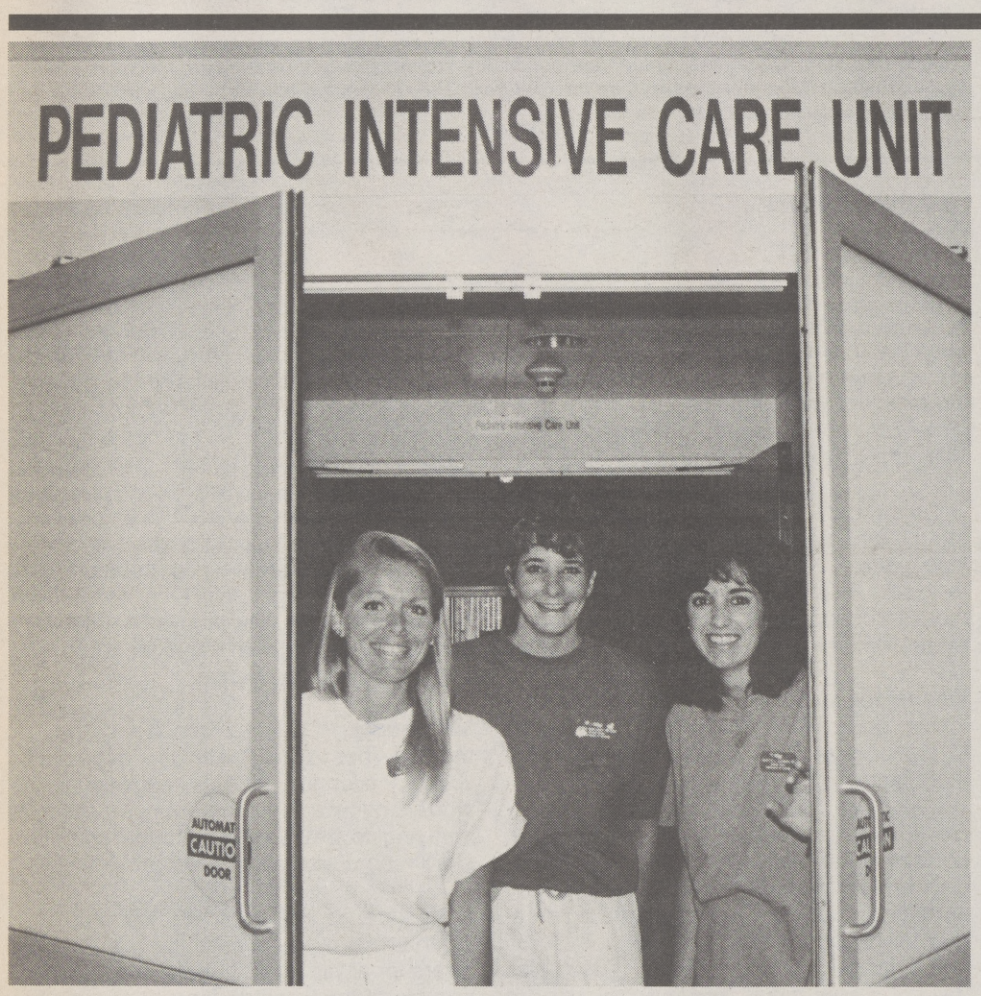
Adams-Ender came up through the ranks from a background that began on a tobacco farm in Wakefield County, North Carolina. She was the fourth oldest of 10 children, the daughter of a sharecropper. It was her father who encouraged her to go to school to become a nurse.

Later she would go on to get a master's in nursing from the University of Minnesota, and then become the first nurse, black or female, to earn a master's in military art and science from the Command and General Staff College in Fort Leavenworth. She has several other "firsts" to her credit, including the fact that she is the first Army Nurse Officer to be appointed Director of Personnel for the Army Surgeon General—a post she holds in addition to heading the Army Nurse Corps.

Following her talk, Adams-Ender will be joined by a group of local experts for a panel discussion. The other panelists will include moderator DeLois Weekes, professor in the UCSF School of Nursing; Helen Ripple, associate director of the Medical Center at UCSF and director of nursing; Estrella Manio from the Medical Center's Department of Nursing Education; Willard Harris from the California Commission on Aging; and Wilma Espinosa, a representative from the community.

For further information on the program or continuing education credit, call x62993.

General Adams-Ender



Welcome to the New PICU

The doors recently opened to the shining new 10-bed Pediatric Intensive Care Unit on the south wing of 6 Moffitt, located just down the hall from the former PICU, now closed. The new unit marks the third opening of new intensive care units in recent months: The 10 Moffitt Coronary Care Unit opened in April and the 9 Moffitt Intensive Care Unit opened in May. (The new CCU & ICU are only partially complete; both are waiting for additional wings.) Your PICU hosts in the photo include (left to right) nurses T. J. Hagen, Debra McCluney and Nanette Leonard.

Diabetes Clinic Features New "Save the Feet" Program

You may have read in the February '89 *UCSF Magazine* about a program at the VA Medical Center that has been remarkably successful in helping prevent the serious foot problems frequently associated with diabetes.

Good news: The program now is available here at the Medical Center, as part of the Diabetes Clinic in the ACC. Directed by Laurence Gavin, staff physician at the VAMC and associate director of the UCSF Diabetes Clinic, the program pools the expertise of diabetologists, podiatrists, nurse educators and vascular and orthopedic surgeons.

Developed by VAMC researchers Richard Stess, Peter Graf, Gretchen Gooding, Carl Grunfeld and colleagues, the program concentrates on detecting and managing foot trouble at an early stage, thereby preventing the complications that can lead all too often to amputation. Of the 50,00 to 60,000 amputations performed in the US each year, half are attributed to complications of diabetes.

From both a diagnostic and management standpoint, the program employs some unique and up-to-the-minute techniques.

(continued on page 7)

Peter Graf with Emed printout. Different shades show the various pressure points, with the highest pressure points signaling tissue in danger of breaking down.

Be Part of the Health Fair or Career Fair

The Medical Center's annual "Careers in Health" fair is scheduled for Thursday, October 18, 4 to 7 p.m., followed by the Children's and Family Health Fair on Saturday, October 20, 10 a.m. to 3 p.m. Both events will take place in the Millberry Union gym.

If you have participated in making either or both of these events the fantastic successes they have been in the past, then great—the event planners are looking forward to your participation again this year. Call Ellen Call at x61848 to declare your interest (or ask questions).

If you have not participated in the past, there's always room for newcomers. Both events offer the opportunity not only to present your field to large numbers of people (5,000 visitors are expected at the Health Fair), but it's a chance to work with and get to know people from all over the campus.

The audience at the health fair includes all ages. Booths are generally of a participatory sort, geared toward short attention spans. The career fair is geared for high school students and those considering switching careers or returning to the workforce. (If you know any potential candidates for a career in health care, tell them to save the date.)

How to Get a Voice or Digital Pager

Those who wish to acquire in-house voice pagers or long-range digital pagers, take heed:

All in-house voice pagers are handled by the Hospital Telecommunications Department, x65050, Box 0204, M 46. Purchase/rental requests can be made via memo to Marty Gustafson. (Requests must be signed by the department manager and administrative manager.) Repairs should be directed to the Biomedical Engineering Department, x63862, Box 0204, M 60.

Requests for long-range digital pagers billed to hospital accounts also must be made via memo to Marty (carrying signatures of both department manager and administrative manager). Repairs for long-range pagers should be directed to the Hospital Telecommunications Department at x65050, and a vendor will be contacted for replacement.

10,000th Blood Donor: A Touching Story

Our Blood Donor Center, which reached its second anniversary earlier this year, recently marked another milestone: Donor number 10,000 walked through the door and gave blood. His name was Bernard Sankey, a friendly fellow from Fresno, who had heard that a friend of his was hospitalized here at UCSF and was going to have surgery.

Their friendship goes back several decades—to high school, as a matter of fact, when she was his first love. When he found out about her impending surgery, Bernard hopped in the car and drove up here to give blood in her behalf, little expecting that he would achieve celebrity blood donor status before the day was done.
